Add-on Catalog

INSIDE: Exciting add-ons to enhance your Sage CRM system

YOUR SUCCESS

IS IMPORTANT TO US

Last year, Azamba celebrated it's 10th year in business, and personally, I have been helping companies like yours reach their goals through the use of Sage CRM for nearly 20 years. The time has flown by!

As my team and I sat down and reflected on the hundreds of customers we have helped, we realized that our top-performing customers have taken advantage of the powerful customization capabilities baked into Sage CRM. Those customers have shaped, tweaked, and extended the core product to enable themselves to create streamlined, specialized processes and screens that help them reach their business goals and deliver consistent, high-quality experiences to their customers and prospects.

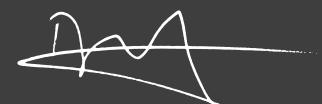

As part of our quest to help you be more successful, we asked ourselves how we can help more customers reach the same level of value from Sage CRM quickly and affordably. You are holding the result of those discussions in your hands.

Inside these pages, you will find a wide variety of useful add-ons and extensions to Sage CRM that we hope will resonate with your needs and help you take your Sage CRM investment to a new level. These are some of our best and most asked for customizations, and we are now delivering them all for affordable monthly subscriptions.

And, if you are a Premium or Preferred subscriber to our OnTrack CRM Success Plan, every one of these add-ons is available at no charge. Yep ... FREE!

We're not stopping here. We have committed to expanding and improving the current offerings in the coming months and years. If you have an idea for an add-on, let us know – we would love to hear from you and add it to our growing list.

I look forward to hearing from you. Enjoy flipping through the catalog!

DASHBOARD GURU

VIEW, UNDERSTAND, ANALYZE, AND LEARN FROM YOUR DATA LIKE NEVER BEFORE

Do you need a way to filter, visualize, extract, and make sense of all the information in your CRM? To transform your data from a collection of information sitting in CRM, to a valuable asset that will deliver real value to your business? Finally do all this within Sage CRM without paying your IT department or consultant.

- Identify and understand issues, trends, and opportunities, and always know what your teams are doing.
- See unique insights into your companies, opportunities, communications, and cases with multiple specialized dashboards.
- Filter your data and information in multiple ways and change parameters as needed.
- Create better marketing lists based on the smarter data you can only get from Dashboard Guru.

DASHBOARD GURU FEATURES

AGGREGATE DATA IN ONE PLACE

View dashboards, filtered data, report information, and marketing functionality all from one simple, easy-to-use interface.

USE MORE THAN YOUR CRM DATA

View information pulled from your company databases to create high-value dashboards that give you insight into what is going on across your company.

EXPORT TO EXCEL

Access the detailed data that drives the dashboards you use. Within seconds, you can export data to Excel, where you can slice and dice it any way you like. Import your data back to Sage CRM with just one click.

CREATE SAGE CRM GROUPS

Create call lists, email lists, and marketing groups using Dashboard Guru, and set yourself up for whatever you need to do next.

AUTOMATION TOOLBOX

PROVIDE YOUR SALESPEOPLE WITH AUTOMATIC REMINDERS AND LAST CONTACT DATES

If you aren't using Sage CRM to automate any of your business processes, you aren't maximizing the value of your CRM investment.

The Automation Toolbox automates repetitive but important tasks that might otherwise fall through the cracks.

Show your customers and prospects you are consistent and dependable by making sure simple tasks always get done.

OPPORTUNITY NOTIFICATIONS

Eliminate the need to set notifications manually. Automate follow-up notifications throughout your sales process to ensure quality service and customer satisfaction. Choose the timing and number of notifications to fit your needs.

PERSON MULTI-LINK

TRACK COMPLEX, MULTI-COMPANY BROKER
AND AGENT CONTACTS WITH EASE

The screenshot displays the Sage CRM interface for a user profile. At the top, there are navigation tabs: "Sage CRM", "My CRM", "Team CRM", "Reports", and "Marketing". The profile information includes: Person: Clemence Stickings, Phone: 44 1344 897 8791, Company: American Concrete Service, E-mail: CStickings@demოსagecrm.com, Sage 100 Company: ABC, and Company Name: ABC Distribution and Service Corp. Below this, there are tabs for "Summary", "Quick Look", "Associated Companies", "Marketing", "Notes", "Communications", "Opportunities", "Cases", "Addresses", "Phone/E-mail", and "Self Service". The "Associated Companies" tab is active, showing "2 Association Records, Page 1 of 1" and a "New Association" button. A table lists the associations:

Company Name ^	Role	Default	Role Description
3G Homes	Account Manager		
American Concrete Service	Administrative	Y	

Do you work with an agent, broker, or partner who represents multiple organizations?

The Sage CRM native functionality won't let you link a person to multiple companies. But with the Person Multi Link, you can link each person to every company they represent.

You can track all of your communications against every person and company involved, no matter how complicated those relationships are.
